Frontend:

HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React, Git & GitHub, Responsive Web Design, API Integration (Fetch/Axios), Form Validation, Basic UI/UX principles

Tools & Technologies:

VS Code, Chrome DevTools, NPM, Figma (basic), Postman (basic)

Core Concepts:

Component-based development, State Management (useState / Context API), Reusable UI Components, Version Control, Debugging, DOM Manipulation

Interests:

User interface design, building responsive web applications, learning modern JavaScript frameworks, improving user experience (UX), and exploring frontend performance optimization

WORK EXPERIENCE

Whitteintel Ltd.

Front-End Developer Intern / Junior Front-End Developer | January 2023 – Present

Task/Responsibilities

Assisted in building user interfaces using HTML, CSS, JavaScript, and React.

Created responsive web pages that work well on mobile and desktop devices.

Helped integrate API data into the frontend using fetch/Axios, improving how users view information.

Worked with reusable React components to make the code easier to maintain.

Improved page load speed by organizing files and removing unnecessary code.

Collaborated with designers and backend developers to bring new features to the dashboard.

Used Git and GitHub for version control and teamwork on projects.

Added form validation to prevent users from submitting incorrect or empty information.

Fixed UI bugs and made small improvements based on user feedback.

Learned and applied basic authentication on the frontend using JWT to protect some pages.

PROJECTS

Tech Startup Landing Page (HTML, CSS, JavaScript / Tailwind CSS)

Designed and built a responsive landing page for a tech startup, showcasing the company's services, mission, and contact details. Implemented smooth scrolling, interactive UI elements, and mobile-friendly layouts to improve user engagement.

Food E-Commerce Website (HTML, CSS, JavaScript / React optional if used)

Developed a food ordering platform where users can browse meal categories, view product details, and add items to their cart. Focused on user-friendly navigation, responsive layouts, and a clean, visually appealing interface suitable for both mobile and desktop screens.

Clothing E-Commerce Website (HTML, CSS, JavaScript / Tailwind CSS)

Created a fashion store interface featuring product listings, price display, and category sections. Implemented responsive product grids, modern UI components, and improved user experience through intuitive navigation and consistent branding.
